SUMMARY

▸ I'm a Jr full stack developer pivoting from a "full-stack" career in performing arts. In the arts, I enjoyed expanding on self-taught concepts, applying and sharing those skills as a leader and instructor. As a developer, I seek constant growth while working with a dynamic team that encourages curiosity. I'm a skilled communicator and a natural presenter, and a developer who can balance creative and analytical methods.

SKILLS

Languages ▸

JavaScript, SQL, CSS, HTML, Ruby

Frameworks and Tools ▸

Express, NodeJS, ReactJS, Git, jQuery, Ajax, EJS, Bootstrap, SASS, Rails, Wordpress

Databases ▸

PostgreSQL

Testing ▸

Mocha/ Chai, JEST, Cypress

Skills ▸

TDD/BDD, Web Design

EDUCATION

Lighthouse Labs

Diploma in Full Stack Web Development | 2021

- Collaborative development, software architectures, team version control.
- Computer Science fundamentals: Algorithm Design, Trees, Data Structures, OOP, Abstraction.

Canadian College of Performing Arts

Adv. Diploma in Performing Arts | 2010-2012

- President, student council.

PROJECTS

TRENDI

Tech Stack ▸ React, Sass, Axios, Material-UI, Express, Needle, Socket.io
Browse top trends on Twitter and get a visualized geo-locational sentiment analysis in real time.

CAESAR'S

Tech Stack ▸ PostgreSQL, Express, JQuery, HTML, SASS, Twilio
A mobile web-app for customers to order their favourite beverages with an interface for restaurant staff to confirm and keep track of orders.

SCHEDULER

Tech Stack ▸ React, Axios, Storybook, Jest, Cypress, PSQL, Webpack Development Server
A single-page-app developed in a test-driven environment using ReactJS, storybook, and Cypress. Users can add, edit, and delete scheduled events with data stored in PostgreSQL.

TWEETER

Tech Stack ▸ Express, jQuery, NodeJS, CSS, HTML
A Twitter clone using AJAX to fetch and update messages.

PAIR PROGRAMMING FOR NEW DEVELOPERS

A list of reminders on pair programming for new developers. Published on Medium.

PROFESSIONAL EXPERIENCE

Theatre Director and Educator - *Self-Employed | 2009-2021*

- Ethical hiring and team curation while engaging artists and department heads based on project, budget, company mission statement and diversity goals.
- Mentoring artists to succeed in their roles while encouraging a safe and engaging environment to offset the high demands of each project.
- Classroom management and lesson planning as an instructor for professional-training programs and college workshops.

Freelance Sound Designer -*Self-Employed | 2012-2021*

- Prompt delivery of tailored sound and music designs to exceed client's expectations. Proficiency with Logic Pro and QLab for theatre companies, and film and media creators.
- Working within a team of designers and following proper protocol in technical troubleshooting while managing audio technicians.
- Additional professional experience in video editing, light-board operation with experience in knowledge-transfer of self-taught concepts.

Marketing / Developer Coordinator - *Atomic Vaudeville | 2016-2018*

- Deploying new company website with Wordpress, HTML, CSS and launching social media presence resulting in a wider national reach.
- Monthly email marketing, creating press releases for print and social media, and executing artistic season marketing plan.
- Donor relations, board of director and volunteer engagement, expanding sponsorship acquisition and raising over \$10k in private grants.
